

# Innovosens custom patch for PalmSens Sensit wearable

## Empowering Personalized Sweat Analysis

The Innovosens Custom Patch is a revolutionary DIY sweat analysis solution designed to empower researchers, athletes, and health-conscious individuals. This blank wearable sensor offers unmatched flexibility by allowing users to immobilize their preferred assay directly onto the patch's electrode, enabling targeted biochemical measurements.

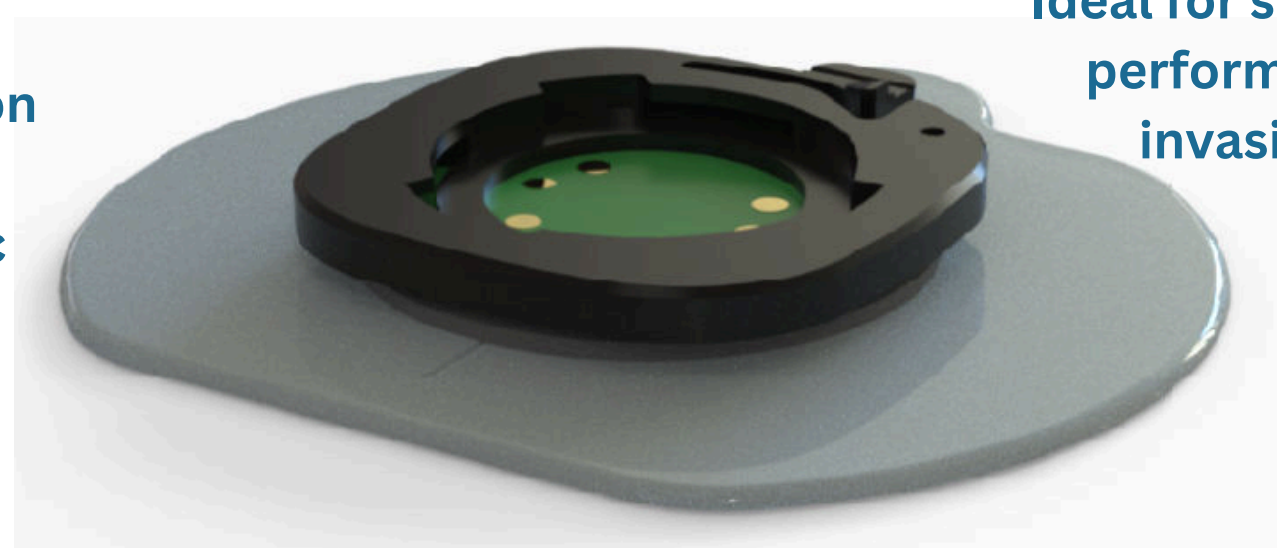

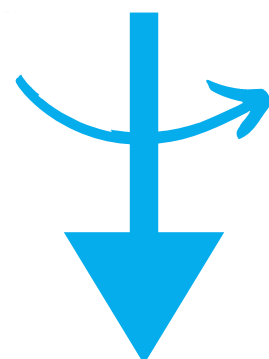

## Innovosens Custom Patch: Revolutionizing Wellness with Smart Features

### Customizable Assay

Apply your own biochemical assays to measure specific sweat metabolites and electrolytes relevant to your needs.

### Targeted Monitoring

Tailor your sweat analysis to focus on key indicators for hydration, electrolyte balance, and metabolic markers.

### PalmSens Sensit Compatible

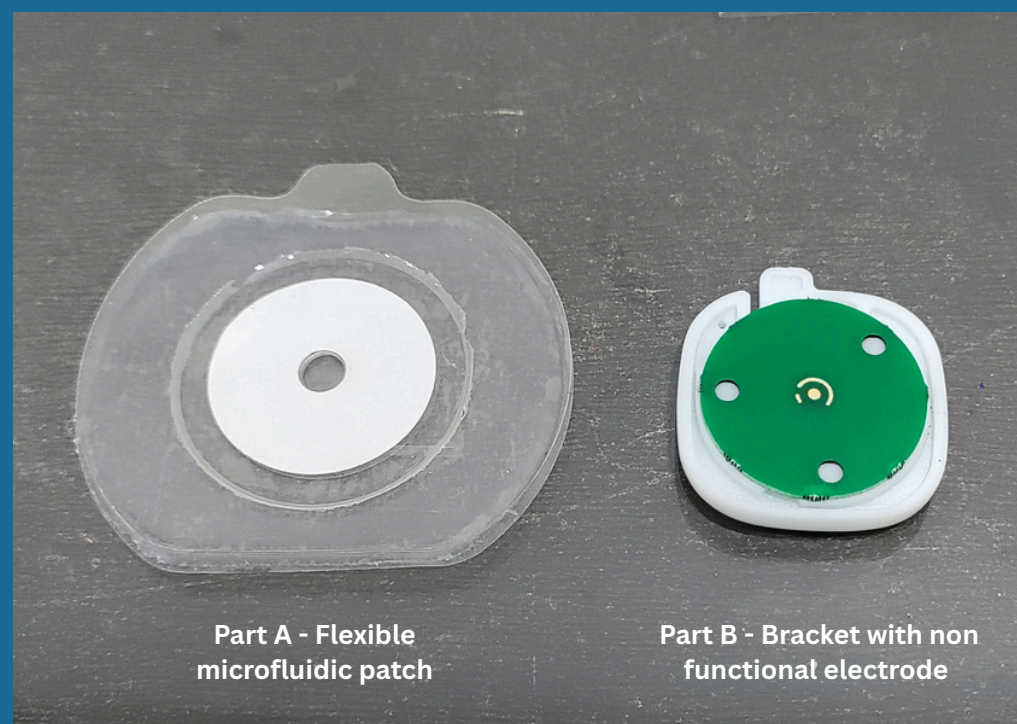

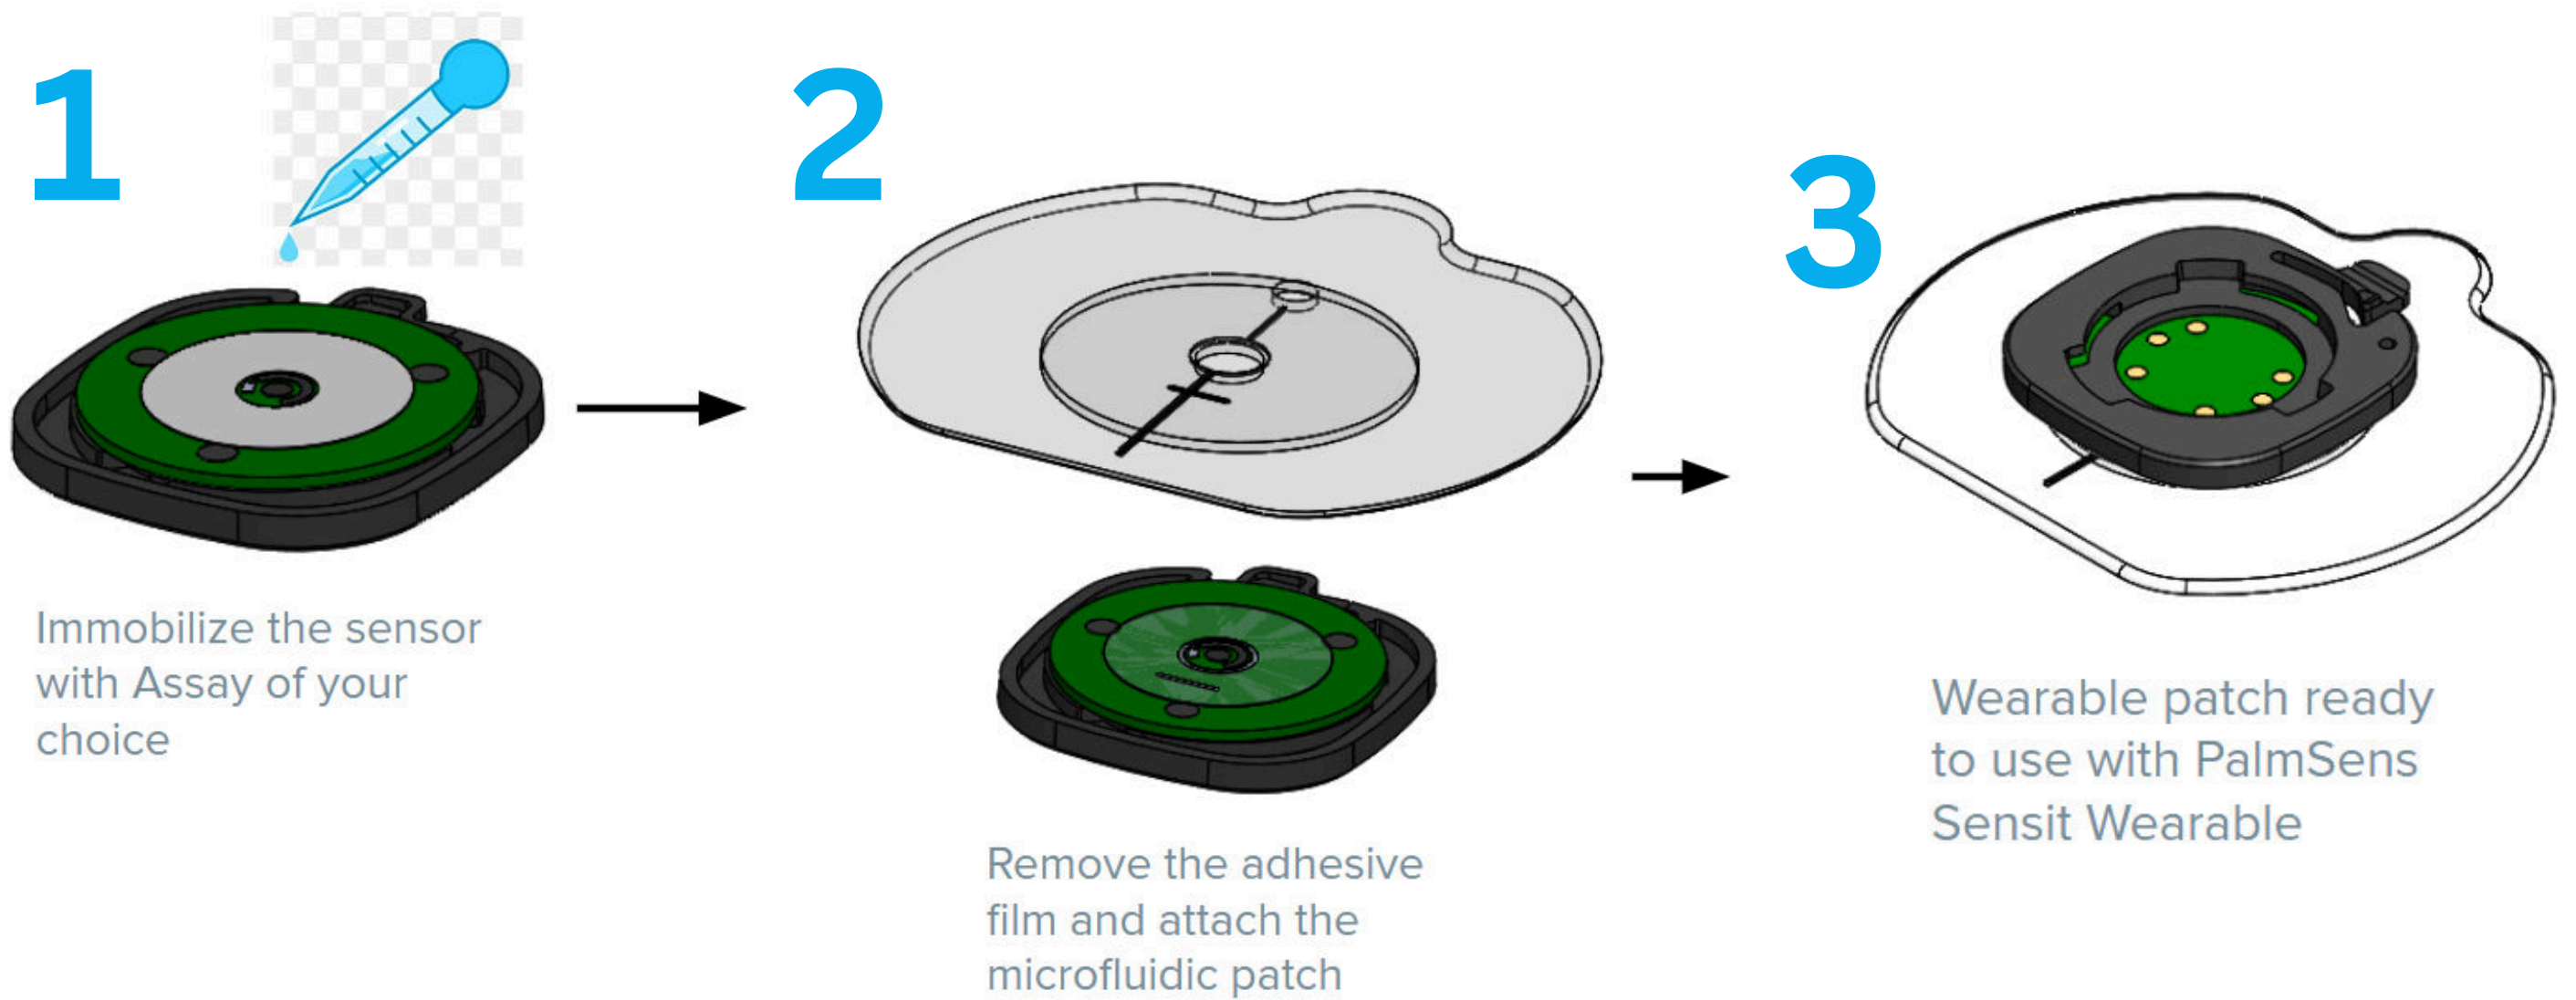

Designed to seamlessly integrate with the PalmSens Sensit wearable, ensuring precise and reliable readings.

### Versatile Applications

Ideal for scientific research, athletic performance tracking, and non-invasive health monitoring.

## Steps for using DIY patch

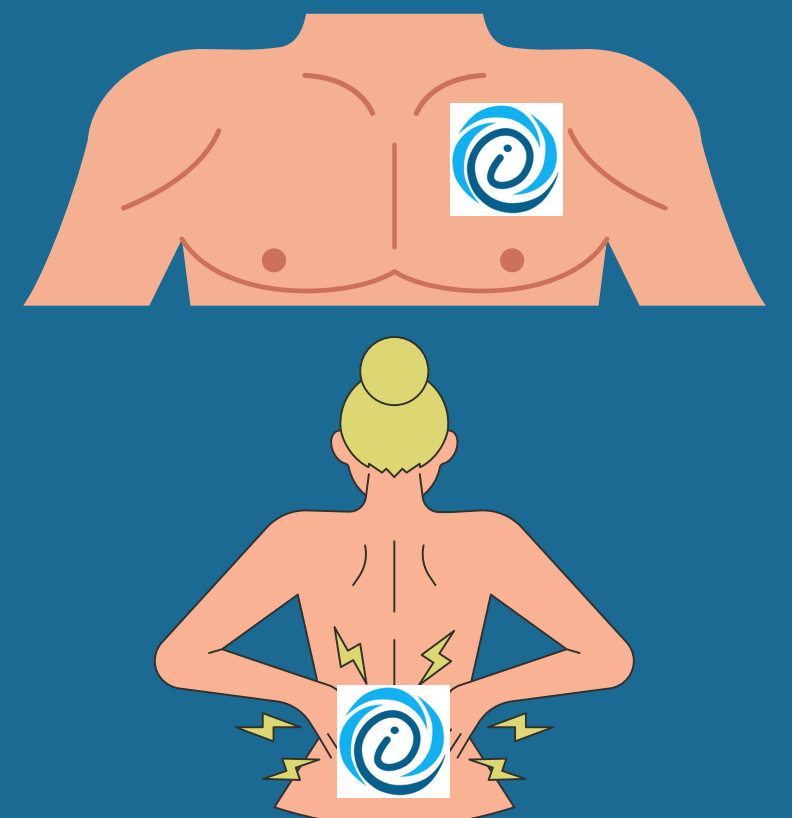

The DIY patch will be provided to the user in 2 parts.

## Recommended Placement Areas

Patch Orientation – Correct Side Up and Down

## About Innovosens

Innovosens is a pioneering health tech company committed to transforming sweat analysis technology. Our mission is to provide innovative solutions that empower personalized health insights. With award-winning products and strategic partnerships, Innovosens continues to push the boundaries of wearable technology.

Elevate your research, optimize athletic performance, or enhance health monitoring with the Innovosens Custom Patch.
